

NMV UNIVERSITY

Established under Tamil Nadu Private Universities Act, 2019

Initiative of **Saveetha University**

Sathyam

Truth is the foundation of all that is eternal. It is the bedrock of our existence.

Gnanam

Higher Knowledge,
our very raison d'être.

Anantham

The outcome of all our knowledge and actions is pure bliss for the self and creates happiness for the world.

NMV University

is a multi disciplinary State Private University established under Tamil Nadu Private Universities Act. It is headquartered in Chennai with its main campus near Madurai with a mission to transform India to a global knowledge superpower. It was founded by Dr. N. M. Veeraiyan, an eminent educationist with more than five decades of experience in establishing and running several prestigious institutions.

Vision

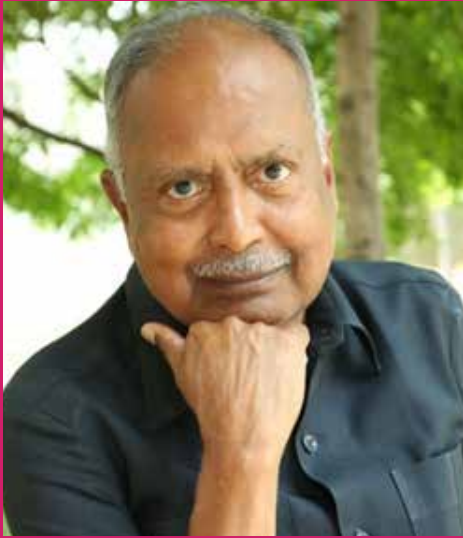

- » To create an inspired space where the best of scholars, scientists and leaders from across the world work together to develop innovative solutions for complex problems and build a better future for Earth.

Mission

- » To transform students into highly competent professionals who are ethical, empathetic and inspired to make the world a better place.
- » To be the cauldron of research and innovation directed towards solving the biggest challenges of humanity such as climate change, poverty, food security, health, pollution and other such issues.
- » To develop transformational models of higher education and research, which will take India to the center stage of world education and research.

Leadership

Dr. N. M. Veeraiyan
FOUNDER AND CHANCELLOR

Dr. N. M. Veeraiyan is a trailblazer and a visionary in the field of education. He hails from a small village called Nalligoundanoor in Erode district, Tamil Nadu. An alumnus of Madras Medical College 1970, the burning need for quality health care inspired him to start the first multi specialty hospital at Erode in 1977. His vision for quality professional education led him to establish the first private Dental College in 1988, which is ranked No:1 in the country and 13th in the world (World University QS Rankings 2023)

The success story of innovation and entrepreneurial education continued with the establishment of pioneering Institutes of Engineering, Law, Management, Architecture, Nursing, Physiotherapy, Medicine and the Deemed University Saveetha Institute of Medical & Technical Sciences, Chennai in 2005. Dr. Veeraiyan's vision for a truly world class Educational Institution in India culminated in the creation of NMV University. His life is an unending source of inspiration to the nation and to the world.

NMV Institute of Education

Teachers' education programs need a major revamp to respond to the rapidly evolving field of education. NMV's F.Ed program is a unique experiential program which brings together the best of pedagogy philosophies and practices from across the world, equipping the teachers with cutting edge technology and skills.

» COURSES OFFERED

Fellowship in Education

The goal of the Fellowship in Education Program is to prepare teachers for all aspects of their profession.

Over the course of a year, the program engages teachers in learning and practicing the broad range of knowledge, skills, and strategies that they need to be the best teachers they can be.

The Fellowship in Education Program integrates theory with immersive classroom practice.

Teachers in the program put their learning into practice in real classrooms, receive in-depth feedback from experienced mentors, and reflect on their development as a teacher.

The Fellowship in Education Program goes well beyond traditional teacher training programs.

It is grounded in the real-life experiences and needs of current teachers, incorporates global perspectives and recent advancements in educational research, elicits active participation and engagement, and prepares teachers to utilize the latest technology and multimedia tools in the field.

One Year Immersive Professional Development Program for Teachers

» HIGHLIGHTS

- ✓ Aims for the holistic development of an ideal teacher
- ✓ Prepares teachers for every aspect of their role from curriculum design and assessment to student support and documentation
- ✓ Innovative modules designed by experienced teachers and global experts
- ✓ In-depth theory combined with immersive classroom experience
- ✓ Mentorship of experienced teachers
- ✓ Guest lectures, panel discussions, and workshops by experts in the field
- ✓ Learn by doing: design lesson plans, practice micro-teaching, create multimedia content, engage in self-reflection and critical thinking, produce portfolios, and more!

Testimonial

I feel proud to be a student of NMV Institute of Agriculture and Technology. My first year at our college campus was a memorable experience, with lots of learning opportunities and a vibrant campus life. Our professors are highly knowledgeable and take extra efforts to connect to us and help us grow.

CS. Lalitha

I B.Sc. (Hons.) Agriculture

Our campus is situated in the millet bowl of Tamil Nadu, and has excellent infrastructure. We are enjoying the air conditioned smart classrooms. We are frequently exposed to field visits and we learn subjects practically. I feel lucky to be able to learn agriculture in this wonderful campus

B. Sundarrajan

I B.Sc. (Hons.) Agriculture

The Fellowship in Education course was an insightful and valuable learning experience. We learnt the essence of all the educational philosophies, and major pedagogy practices across the world. I feel much more equipped and confident now as a teacher.

B. Rupal Chauhan

Fellowship in Education

It has been an amazing year so far. There have been so many mega events organized in our college and we have participated and organised more than 10 programs for the farmers. One thing I like particularly is the emphasis on academics and the special classes the college has organised for training in group exams, UPSC exams etc.

C. Dinesh Kumar
